SUMMARY

Motivated Machine Learning Developer skilled in Python, Anaconda, Jupyter Notebook, experienced in building predictive models, user-focused web applications. Also strong in Full Stack Development, UI/UX design, and agile development, currently expanding expertise in Deep Learning (DL) and NLP with predictive modeling to deliver scalable, intelligent digital solutions.

SKILLS

Programming Languages: Python, JavaScript, Java
Frontend: HTML5, CSS3, Tailwind CSS, React.js, Figma
Backend: Node.js, Express.js, RESTful APIs, JWT
Databases: MongoDB, NeonDB
Tools & Platforms: Git, GitHub, Postman, VS Code
Currently Learning: TypeScript, Neural Networks, Predictive Modeling

EDUCATION

ABES Institute of Technology — BTech in Computer Science with Artificial Intelligence (2023–2027, 3rd Year)
BNG International School — Intermediate School (2023)

EXPERIENCE

Web Developer Intern — CodeSoft (Remote) (Oct 2024 – Nov 2024)

- Designed and build responsive Landing Pages and multiple projects using HTML, CSS, and JavaScript.
- Conducted usability testing and implemented design refinements, boosting customer engagement by 25%.
- Collaborated with backend developers to integrate RESTful APIs, ensuring a consistent user experience across web and mobile platforms.

PROJECTS

Loan Defaulter — Web based Loan Status Prediction

- Developed an advanced Machine Learning Loan Defaulter prediction model which predicts or tells whether a person is a Loan Defaulter or not.
- Build using ML algorithm like XGBoost Classifier which gives the best accuracy and result in making and training the model .
- Used Streamlit to make the Frontend which tells multiple factors like risk gauge, credit Score, prior defaults etc...

GitHub Repo: <https://github.com/KunalxKushwaha/Loan-Defaulter.git>

Resumate — Your own Personal Resume-Buildr

- Enhanced a scalable full-stacked Resume Builder Web Application that allows users to design, customize, and download professional resumes using multiple templates and theme Customization.
- Built using React.js, Node.js, Express.js, and MongoDB for optimized frontend-backend integration.
- Delivered a responsive, high-performance UI/UX across devices using Tailwind.

GitHub Repo: <https://github.com/KunalxKushwaha/Resume-Builder.git>

ACHIEVEMENTS & LEADERSHIP

- Cleared SIH Internal Round 2 Times in a row, demonstrating leadership, project management, and problem-solving skills.
- Top 10 Rank in MSIT Hackathon; participated in BU Hackathon, Sharda University Hackathon and AMU Hackathon, contributing to AI and web-based innovation challenges.
- Solved 100+ coding problems on LeetCode, earning badges and strengthening data structures and algorithm skills.

CERTIFICATIONS

- Python Certification — Infosys
- Data Analytics Job Simulation Certification — Deloitte
- Data Structure and Algorithms with C Certification — CodeChef
